

SOLUCION FISIOLÓGICA VITULIA

single dose

INDICATIONS

SOLUCION FISIOLÓGICA VITULIA is recommended for washing the nasal pits and the daily ocular wash, the eye and nose hygiene of a baby, child or adult.

Nasal use: SOLUCION FISIOLÓGICA VITULIA facilitates the cleaning of baby's noses which is often blocked by mucus. It favours the elimination of excessive excretions. Thanks to its humidifying action, it rapidly resolves an adult's nasal dryness.

Ophthalmic use: SOLUCION FISIOLÓGICA VITULIA can be used for a baby's ocular hygiene, by instillation, baths, or the application of the product on a sterile gauze.

The physiological solution can be used by an adult or child.

COMPOSITION

Sodium chloride: 0.9g

Purified water csp 100ml

OBSERVATIONS

SOLUCION FISIOLÓGICA VITULIA can be used as often as necessary, without risk caused by extended periods of use.

In the case of treatment with medicine administered nasally or ophthalmically, you must use the physiological solution before its application, not after.

HOW TO USE

Take out one single use container and open it turning the upper part.

Nasal use: Introduce the single use container's cannula in the nasal pit, with your head at a slight incline and gently squeeze the container. Afterwards, blow your nose, or use a nasal vacuum for babies.

Ophthalmic use: Wet some cotton wool and gently clean the baby's eyelids, or pour some drops in the eye and clean with a sterile gauze.

With newborns, instil the product with the minimum pressure so as to avoid the risk of contamination of the middle ear.

In the case of adults the product can be used as instillation, or ocular washes and baths.

PRECAUTIONS WHEN USING THIS PRODUCT

Single use product.

Do not inject.

Keep out of reach of children.

Do not use after the expiry date.

Do not use the same single use container for nose and eye hygiene.

Keep at room temperature.

Open single use containers must not be reused, as the product does not contain preservatives.
